Signature

Date

Required Program Information: On a separate sheet, please describe applicant's outstanding recycling and/or waste prevention and reduction activities in two pages or less. Your description should provide details about your program and its positive impact on the environment. Include details such as the time period the program has been in effect, number of employees/individuals the program involves, measurable results, etc. Company literature, presentations, news articles, and other documentation may be submitted in addition. Self nominations/submissions are acceptable.

Any questions should be directed to Kerri Scales, Solid Waste Educator at (845) 753-2200 x22.

The Rockland County *WasteWise* Program has been established to provide recycling and waste reduction/prevention assistance to various businesses, organizations, institutions and municipal entities. As part of the *WasteWise* Awards Program, we ask that the awarded institutions take part in a mentoring program. This would allow new organizations/institutions, who are interested in developing a recycling/waste reduction program, to learn from already existing and well-established programs. By submitting an application, your institution/organization agrees to become a mentoring institution, thereby sharing information about their program to other like organizations if requested.
